RESEARCH EXPERIENCE

Research Assistant for Prof. Bocar Ba

Department of Economics, Duke University

December 2023 - May 2025

* Police Alternatives:

- Cleaned, and organized SafeGraph data into a national-level panel for U.S. census tracts (2021-2023) using R.
- Supplemented data with demographic information and integrated 911, 311, and crime data for key cities.
- Analyzed community engagement with law enforcement using (staggered) DiD identification strategy using Stata.
- Collected, cleaned, and analyzed data for Police Alternative Programs in different cities, and demonstrated the results in plots and writings

* Police Non-Profit Organization:

- Collected and organized data on police-related nonprofits across the U.S. using R.
- Created a panel and tested the relationship between nonprofit presence and crime in Chicago using R.

* Public Sentiment on Policing:

- Conducted robust checks for DiD estimation, sensitivity analysis (Honest DiD), and pretrend tests using Stata.
- Generated and visualized results for various datasets using R.

Research Assistant for Prof. Jonathan Petkun

Duke University School of Law

May 2024 - Dec 2024

* Judicial Retirement:

- Cleaned and organized biographical data of Federal Judges using R.
- Provided summary statistics and visualizations of judicial retirement trends.
- Integrated salary data and judicial vacancy records; prepared data for proportional hazards analysis using R.

* Role of Judicial Vacancy :

- Brainstormed potential effects of judicial vacancies on judge behavior.
- Researched and collected potential data sources for further analysis

Research Assistant for Prof. Tony Cheng

Sociology Department, Duke University

September 2024 - May 2025

* Chicago Police and Teacher Union :

- Summarized key events involving the Chicago Federation of Police and Chicago Teachers Union during the mayoral election period.
- Applied Natural Language Processing techniques to conduct sentiment analysis, topic modeling, and keyword extraction from various magazines and newsletters.

WORK IN PROGRESS

What Kind of Emergency Response Is Best? Examining the Impacts of Police and Alternative Responses

Co-authored with Bocar Ba, Tony Cheng, Martha Eies and Justin Holz
